PROFILE

I am a Mumbai Based Web Developer & a BCA (Bachelor's Degree in Computer Application) student. Passionate About Web Technologies. I Love Working At The Intersection Of Creativity And User Friendly Interfaces. I'm a quick learner who's always hungry for knowledge, and constantly expanding my skill set by exploring new technologies, tools and frameworks to stay ahead of the curve. I'm dedicated to building beautiful, high-performance websites that meet the unique needs of each and every client. As I continue to grow in my career and education, I'm excited to take on new challenges and explore new opportunities in the world of technology. Whether it's developing cutting-edge software or collaborating with other developers and professionals, I'm always eager to learn, grow, and innovate.

WORK EXPERIENCE

MERN Stack Developer

Connivia Tech Solutions

Sep 2022 - Jul 2023

- Developed React websites, making components, states, user experience, and user interface
- Worked on backend logics in Node.js with Express.js framework, creating REST APIs.
- Designed and managed databases like MySQL and MongoDB, making frontend dynamic.
- Resolved bugs and errors on production by arranging calls with clients and making changes to software according to client requirements.
- Collected requirements from clients and discussed with seniors working on different projects and technologies with the same backend logic, then implemented the changes.

PROJECT EXPERIENCE

Wingrow Agritech

- Developed a web application with a modern UI and UX design.
- Implemented an OTP-based registration system to improve security.
- Resolved several bugs and improved the overall performance of the application.
- Created REST APIs to allow for easy integration with other systems.
- Developed the backend logic for the application.

Pixelak Films

- Developed a React website from start to finish, including UI/UX design, client requirements gathering, implementation, animations, and deployment.
- Worked closely with the client to understand their needs and deliver a product that met their expectations.
- Used React's component-based architecture to create a modular and maintainable codebase.
- Implemented animations to make the website more interactive and engaging.
- Deployed the website to production on time and within budget.
